Project 2 : BinAzam Ex Mobile App (Courier Service at Dubai)

Trexperia (Frontend)
November 2024 - Present

I've been working on the frontend of a mobile app using Flutter and Dart, focusing on creating robust and dynamic screens. For state management, I've utilized GETx, ensuring smooth and efficient UI updates, and employed Dio for fetching APIs seamlessly. This project highlights my expertise in building responsive and user-friendly mobile app interfaces.
